The City of Perry is requesting sealed bids for the purchase and installation of a surveillance system to be installed at the Perry Arts Center, 1121 Macon Road, Perry, GA 31069.

Sealed Bids for PAC Surveillance System – Purchase and Install will be received until 2:00 pm on June 21, 2019 at 1211 Washington Street, Perry, GA 31069. Bids will then be publicly opened and read aloud at said office. Any bid received after 2:00 pm on June 21, 2019 will not be considered by the Owner. 1.2 Scope of Work

The City is soliciting bids for the purchase and installation of a surveillance system at the Perry Arts Center located at 1121 Macon Road, Perry, GA 31069. The system shall meet the following specifications:

System/Storage: The system provider will be required to supply and install a DVR, monitor, and mouse with any supporting software/hardware. The provider must provide and install enough cameras to fully monitor the following areas: A 5,490 square foot (90' by 61') main hall, a smaller front entry room and a side entry/food prep area. The area will not have internet or WiFi access, so the system/cameras must be hard wired. All cameras and wiring must be protected from damage in secure casings and be installed in a neat and orderly fashion.

The DVR will need to have the capability to store two weeks of all camera recordings. The DVR must be able to project stored video footage to an onsite monitor. The system will be required to have the ability to download the stored video footage to a DVD and flash/thumb drive. The downloaded footage must be produced into a standard file format (.AVI, MP4, etc.) and with any associated video player/codex.

The provider must supply and install a lockable security cabinet to contain the DVR, which provides adequate ventilation and security for the DVR. No offsite or networking capabilities are required. The provider must issue a two-year minimum warranty on the product and installation. Please refer to the attached building layout for further camera coverage requirements and DVR location.

Video Quality: The camera/system resolution will need to be 1080p and 30 FPS capable.

Zoom: The camera/system will need to have a zoom capability that can produce an identifiable person sized image.

Night Vision: Will be required on all the installed cameras. The camera/system will have to provide a sufficient image quality for identification at night with only ambient light in an interior 5,490 square foot open floored meeting space, plus two smaller areas.

Motion Sensing: If the DVR can hold two weeks of continuous recording of all camera feeds then motion sensing cameras are not a requirement. If the DVR storage is insufficient for two weeks of continuous recording of all camera feeds, then motion sensing cameras will be a requirement to meet the two-week storage minimum of video footage.

A floor plan of the property “Attachment A – Floor Plan” is included with this bid document. The main hall, front entry room, and side entry/food prep area are outlined in yellow. The desired location of the security cabinet and DVR is also noted in red.
