**Maintenance and Repair**

Nothing in the Land Management Ordinance shall be construed to prevent the ordinary maintenance or repair of any exterior architectural feature of structures located in a historic district or the Downtown Development Overlay District when the repair does not involve a change in design, material, color or outer appearance of the structure. Certificates of appropriateness are not required for alterations to the interior of a building or alterations to the use of a building (although other permits may be required).

**Notices**

While there is no fee charged for review of a Certificate of Appropriateness application, a fee of \$210.00 is charged for work begun without an approved Certificate of Appropriateness.

Approval of a certificate of appropriateness does not waive any required permits, inspections, or fees required by the Community Development Department. Structural changes to a building require a building permit from the Community Development Department.

Decisions of the administrator may be appealed to the Planning Commission.

The Certificate of Appropriateness is valid for 6 months (180 days) from the date of approval by the administrator. If work is not completed within that timeframe, the applicant shall be required to renew the COA.
